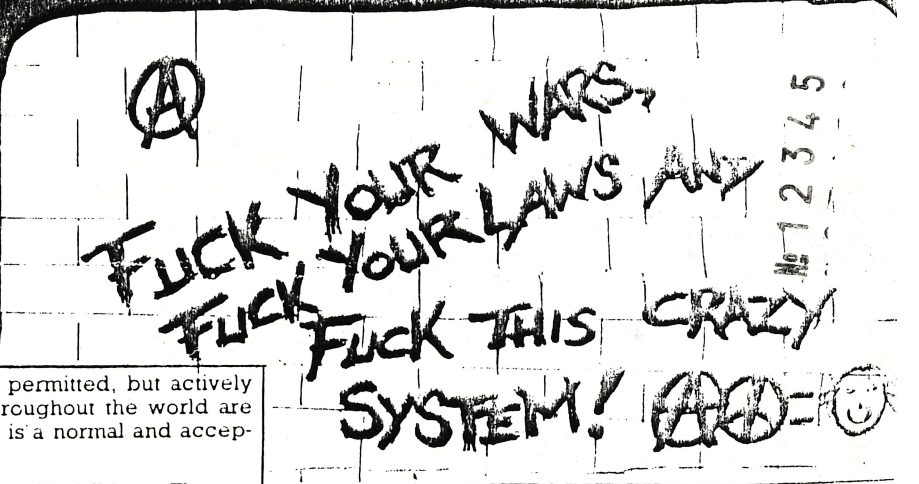
NO DOVES FLY HERE

The sky is empty and it's turning different shades of colour,
It never did before and we never asked for war.
My mind is empty and my body different shades of torture,
It never was before and we never asked for war.
No-one is moving and no doves fly here,
No-one is thinking and no doves fly here,
No-one remembers beyond all this fear,
No doves fly here.

The buildings are empty and the countryside is wasteland,
It never was before and we never asked for war.
The playgrounds are empty and the children limbless corpse.
They never were before and they never asked for war.
No-one is moving and no doves fly here,
No-one is thinking and no doves fly here,
No-one remembers beyond all this fear,
No doves fly here.

☮ THE MOB ☮



The biggest evil, which is not only permitted, but actively encouraged – is that most people throughout the world are brainwashed into believing that war is a normal and acceptable part of their everyday lives.

The process begins when they are small children. The toy guns and tin soldiers, the plastic construction kits which range from simple airfix models to sophisticated remote-control replica tanks which fire 'real' shells, the heroic comic strips, the exciting television documentaries, the patriotic Hollywood films, (when all the noise suddenly abates as the dying hero whispers his final words to the accompaniment of a heavenly chorus which bursts forth from the nearest bush).

Every aspect of the media glorifies war. Even modern newsreels are edited so that nothing too unpleasant is shown to licence paying viewers. With the constant barrage of propaganda, people have become totally indifferent to the realities of war.

REAL WAR is the nauseating stench of singed flesh mixed with the acrid smell of cordite. REAL WAR is demented parents who dig until their hands are stripped of flesh as they search for their children in a pile of rubble. REAL WAR is men, women, and tiny children who scream until their throats bleed as they stare at a jagged edge where a limb used to be. REAL WAR is walking up to a writhing body and trying to wipe away the mud, only to discover that it is pieces of brain splattered from an eyeless face. REAL WAR is walking into a room and finding three young girls nailed to the wall – choked to death with the castrated genitals of their butchered brothers – and their bayonetted Mother strapped to a chair where she was forced to watch, her tongue gouged out so that she couldn't scream.

You don't see REAL WAR on television, or read about it in the Sunday supplements. REAL WAR is hidden from you.

All previous conceptions of war have been totally overshadowed with the advent of the nuclear bomb: but even modern conventional armaments are far more lethal than any used in earlier conficts. In addition, they also possess [illegible]sical and bacteriological destruction, and [illegible]y yet knows what [illegible]ideas can

The two nuclear bombs dropped in 1945 were mere to[illegible] compared with the new generation of weapons and method[illegible] of inflicting them onto an 'enemy'. Any nation which possesses a nuclear strike force has the capacity of unleashing horro[illegible] which haven't yet been fully understood. Scientists have com[illegible] up with a load of bullshit theory, but until a full-scale holocaust actually happens, nobody can really predict the true extent of the carnage – not only to lives, but also to the minds of a[illegible] survivor. (Most of whom would be the politicians and [illegible] military personnel in their cosy bunkers.)

All wars are foul, dirty, and more revolting than your imagination will allow, but we are still supposed to accept them!

We will never persuade the so-called world leaders to stop lobbing missiles at each other as long as we continue to fight amongst ourselves. As long as ordinary people remain divided, governments and politicians will continue to use us as disposble war fodder to bolster their own importance and power.

We must take that power away from these vile people. We have to let them know that we won't accept their putrid egocentric lust. If they insist on continuing their suicidal bloodbath, chuck them into a cesspool and let them sort it out amongst themselves.

But leave us out of it. Let us live our lives in peace and friendship. We have to show them that our propaganda is as effective as theirs, by supporting the peace movements and working together for a more realistic and sane world. The next decade is OUR future, and unless we can force some changes, there won't be any future that we can even consider for our own children.

Forget your petty differences and join together to PROTEST. It is [illegible]weapon we h[illegible] could be more powerf[illegible] tr[illegible] or polit[illegible] about the entire worl[illegible]

RECORDS AND BANDS.

One band well worth listening to (if you have'nt already) if you like fast music with rock 'n' roll tendencies, is Husker Du. Their lyrics vary from personal problems to social problems, a good example of this is their song "IT'S NOT FUNNY ANYMORE",

"YOU CAN DO WHAT YOU WANNA DO
YOU CAN SAY WHAT YOU WANT TO SAY
YOU CAN THINK WHAT YOU THINK YOU WANT
IT DOES'NT MATTER ANYWAY

IT'S NOT FUNNY ANYMORE

PLAY WHAT YOU WANT TO PLAY
HEAR WHAT YOU WANT TO HEAR
DON'T WORRY ABOUT THE RESULT
OR THE AFFECT IT HAS ON YOUR CAREER

ACT LIKE YOU WANT TO ACT
BE WHAT YOU WANT TO BE
FIND OUT WHO YOU REALLY ARE
AND DON'T PAY ANY ATTENTION TO ME.

That song is from their I2inch single METAL CIRCUS, which consists of 7 brilliant songs. All songs were recorded in 1983 by Reflex Records..

CONFLICT - I'VE HAD ENOUGH

This is mankind and mankind kills
You think women are just here for your thrills
Your filthy morals just fucking stink
Don't try and get my hands in your sink
Don't make me your"bird"I'me not your pet
Well,I've had enough,right upto my neck.

This is mankind and mankind kills
Why should women be raped at your will?
This is mankind and mankind kills
Why should women pay for man's thrills?

Why don't you get married?
Wear that wedding ring
Can't she see it's the only respectable thing?
She'll cook his meal
Sleep in his bed
Do anything he says...

I'VE HAD ENOUGH.

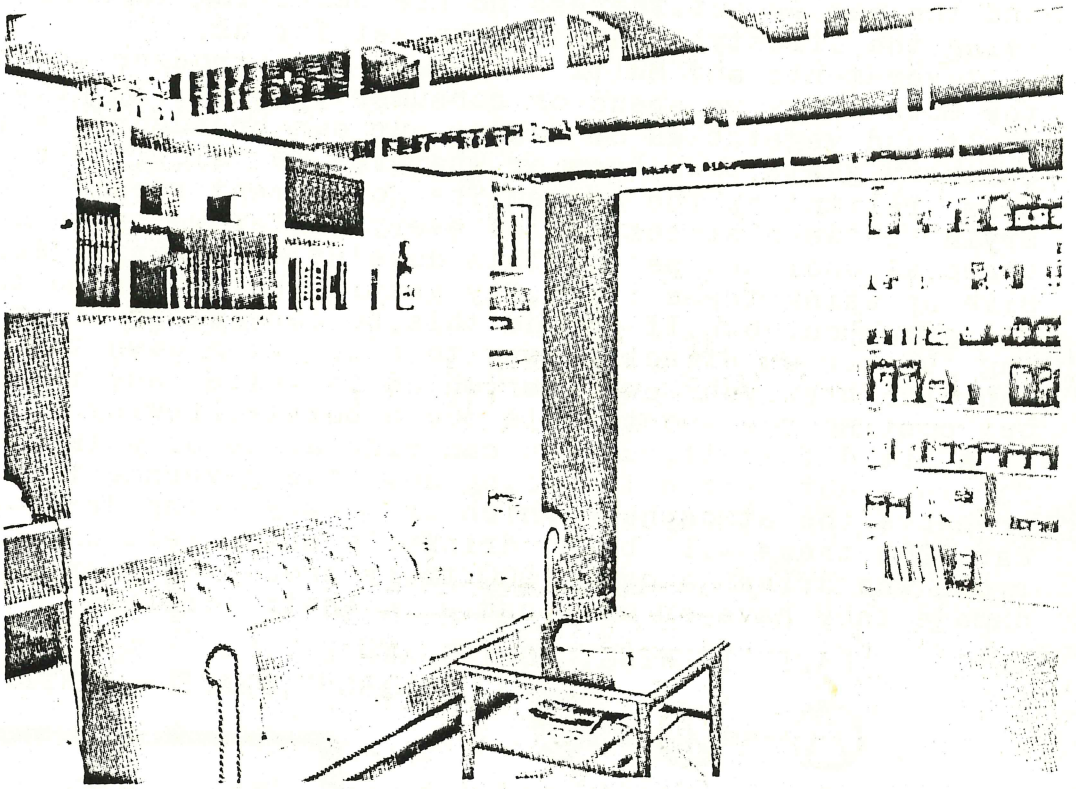
SURVIVAL WORLDWIDE
presents
The first fully approved UNDERGROUND FALLOUT SHELTER in Australia.



Only SURVIVAL WORLDWIDE offers the NATO-approved Fallout Shelter incorporating all necessary life support systems.

It offers total safety from Atomic, Bacteriological and Chemical warfare, Bushfires, Pollution, Cyclones and Civil Commotion. If built and equipped as suggested, the shelter becomes a sealed unit that guarantees survival for any desired number of persons for several weeks, during any kind of attack or disaster.

The rigid construction and luxurious interior make this both an impenetrable storage safe and a soundproof, multiple-use entertainment area. If you have someone or something to protect, an inspection is an absolute must.

(AN AD TAKEN FROM PEOPLE MAGAZINE.)

SURVIVAL WORLDWIDE? One wonders what they mean by this, surely they could'nt mean it provides worldwide survival.I mean,very few people can afford to spend $X thousands on a fallout shelter,even if everyone could afford one it only protects what's inside,forgetting the trees (our source of oxygen),the rivers and creeks (our source of water),the animals and the earth (our source of food).So,what would we be coming out to after the several weeks were over? WE would come out to a world without vegetation,animals or any other living species (except cockroaches,yuk).Rivers and seas of boiling radioactive water. IS THIS WHAT YOU CONSIDER SURVIVAL? IF YOU CARE ABOUT THIS EARTH AND EVERYTHING ON IT..DO SOMETHING..PROTEST AND SURVIVE....

IT IS POSSIBLE.....

FROM THEORY TO PRACTICE

If you believe in the Anarchist theory but sit around doing nothing toward it, waiting for the revolution to come, you may as well stop waiting now. The only way to create a society that everyone (except politicians and the very rich) is happy with, is through evolution not revolution. Our society is upheld by the people in it and the way we act. Theress no use beleiving in Anarchy and still living the lifestyle that's been set for us.

Governments and Multi nationals get stronger and stronger with the more money we spend on consumer products. By growing our own fruit and vegetables or baking our own bread or keeping our own chickens, goats, cows, bees or whatever, we slowly become less and less reliant on the system. The government receives about 50¢(?, varying between states) out of every dollar we spend on cigarette tobbaco, alcohol and petrol. This does'nt necessarily mean we have to give up using these items. Try getting hold of some tobbaco seeds and grow your own. If you do this, be careful as it is illegal, proving this is an effective way to help bring down the government. You can also brew your own beer, which is quite easy to do and works out costing you about 20 to 30¢ a bottle. Brewing your own petrol is a bit difficult, but you can ride abike or walk if it's not to far. This not only helps bring down the government, it also helps to preserve the atmosphere which is slowly being destroyed. "By the year 2050 there will be no drinkable water left on earth." For everyone who drives a car 1000 trees should be planted to repair the damage they have or will cause in their lifetime.

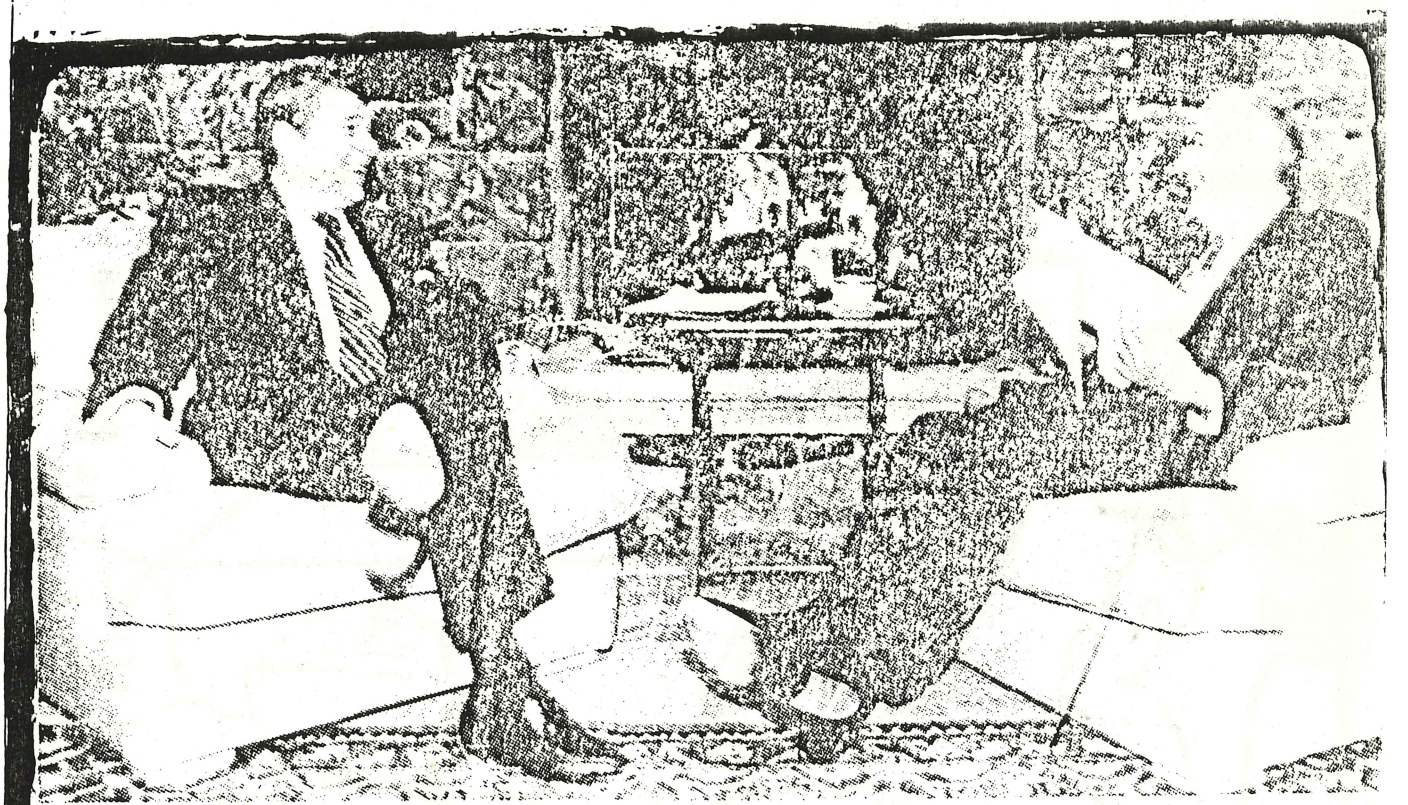
WHY DO YOU THINK THESE MEN ARE LAUGHING?

Is it because they think they've fooled us into hatin-g and fighting each other when we should be uniting with each other?Or are they laughing at the crap they've been feeding us through television and the commercial media? Or is it because they dump thousands of tonnes of grains into the sea each year, meanwhile millions die from starvation,or is it just that they've gone insane with the lies they tell,the pressure,the power and the money? Or is it all of these REASONS and more?

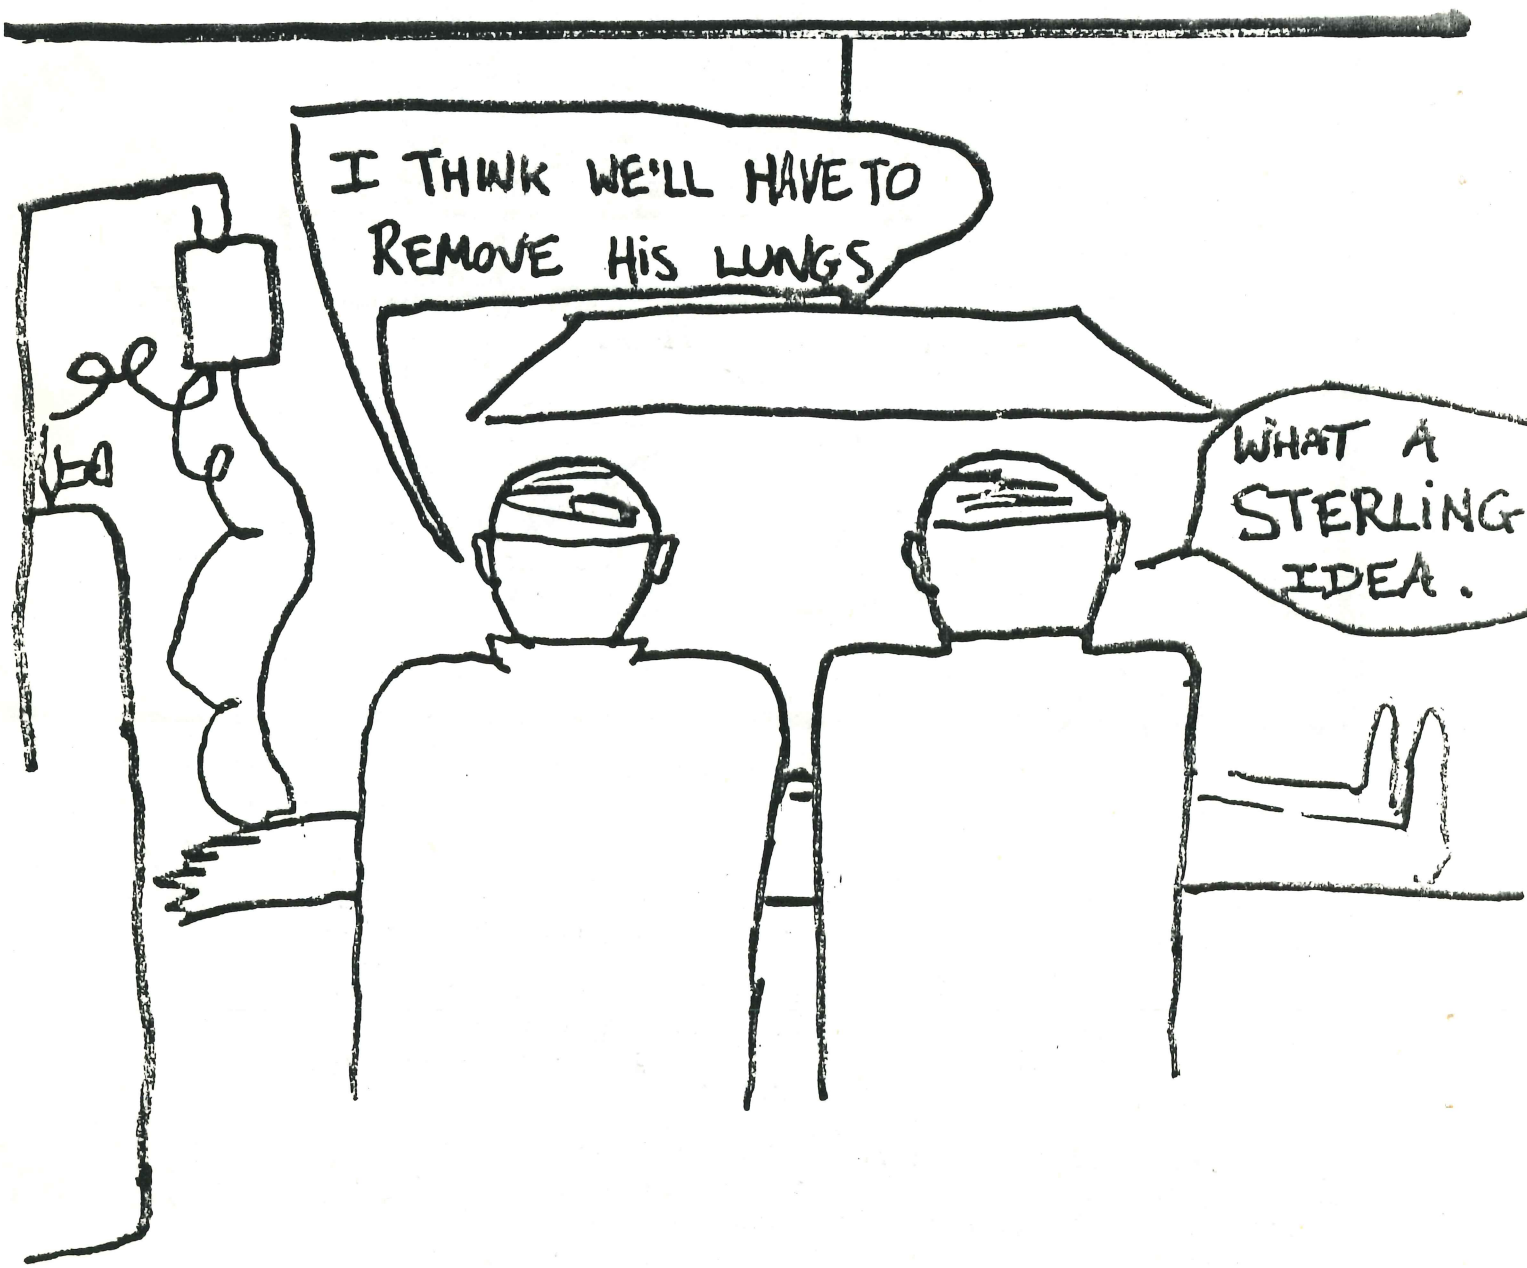


A FIRESIDE chat for Mr Reagan and Mr Gorbachev as they met during a "getting-to-know-you" session. The two leaders smiled as they chatted while this official White House photo was taken in the villa Fleur d'Eau at Versoix, near Geneva.

"THEY'VE ALREADY GOT YOUR NUMBER, GOT YOUR PICTURE - THEY STOLE IT FROM YOU, THEY'VE ALREADY GOT YOUR PICTURE - GOT YOUR STORY, THEY WROTE THE ENDING - THEY'VE ALREADY GOT YOUR FUTURE - GOT YOUR CHILDREN - THEY STOLE THEM FROM YOU. THEY'VE ALREADY BUILT THE FENCES - FIXED YOUR TETHERS. THEY'VE GOT YOUR RIVERS - STOLE THE PASTURES, THEY GAVE NO EXPLANATION, WHY DO YOU THINK THAT THEY ARE LAUGHING? BECAUSE THEY'VE GOT YOU WHERE THEY WANT YOU, THEY TAUGHT YOU FEAR OF FALLING, FEAR OF FEELING, THEY TAUGHT YOU FEAR OF FREEDOM!"

had had no choice, and time two weeks was no big deal.
and HOPE. Despite the systems' concerted effort to suppress any semblance of humanity, they couldn't destroy it completely. It's not easy to forget ' Macho Bob ' sitting in a corner with an old man, patiently trying to teach him to read.
The non-smoking yard sweeper Keven, who would often fly into a rage about the amount of cigarette butts lying on the floor, taking care of a sick man. The incidents of people smuggling tobacco, etc. into people who were locked into their cells for breaking prison regulations, risking similar punishments themselves. "You can't (always) kill the spirit." There was hope in the large number of letters I recieved from people who supported me. Hope in that there are many people in Brisbane and other places around the world who are in, have been in, and will go to prison in an effort to obtain a more just world.

(transcribed from hand-writen block by robert.good-luck martin on the bike-ride for peace.)



other people due to their inability to see their victims as human beings. It also enables men to rape, people to torture, dropping of bombs and napalm on other people similar to themselves and the people they love.
Prison does nothing to alleviate this objectification, if anything it reinforces it. The militaristic regimentation prevents screws and prisoners from having any truly human interaction. The dominant attitudes of the prisoners (and I expect the screws) is that of Macho Sexism and Racism which suceeds in stifling any genuine caring emotions from rising to the surface. The prisoners frustration and anger, everyday feelings,— cannot be directed at their causes - the guards and prison system - and thus the weaker inmates are often the brunt of these feelings. These feelings are further compounded by Boggo Rd.s' barbaric visiting conditions (1 visit per week of no more than 5 people). When a prisoner gets a visit by people (he) cares about, they have to converse through a thick plate glass window using a phone. No physical contact is permitted. Being constantly bombarded with Sexism and Racism, and being under a constant threat of violence by not sticking to the guidelines laid down by the prison system and those of the powerful inmate hierarchy, it is a marvel that anyone who has spent any period of time in their is able to come out and express any loving emotions.

4.) It thus seems to me that the only reason that the state can justify prisons is on the grounds of revenge. It would appear that the attitude is one of " we're going to teach you a lesson you'll never fucking forget." Thoughts of deterence, rehabilitation, the protection of a just and fair society, are all secondary.

I would therefore argue that our prison system is a dismal failure, it attempts to protect an unjust society, it does not deter crime or rehabilitate, and in fact makes people even more likely to reoffend.
I recognize that there may be a need for people who commit violent crimes to be taken out of society to protect other people from violence. However, to place these people in the brutal, repressive environment that exists in our prisons is counter-productive. We need places that will help these people to see others as human beings not objects for their use, anger, frustration, hate or rage.

Some Personal Refections On Prison.

I would like to now just relate some of my personal reactions to the place.
BOREDOM. Many incidents stick in my mind, but none more so than the endless pacing up and down of the prison yard. A Yard is a caged (or in the old prison - walled) enclosure no bigger than the average surburban backyard and is where some 50 men spend the best part of their prison life. The pacing reminded me of animals at a zoo. Some people gave the impression of springs being wound up & up and who eventually explode.
ANGER. Anger at the screws for being able to support such a system. Anger at the television that droned on and on, ignorant of the environment in which some people were viewing it. Anger at the people that built the prison. Anger at a society that could allow this institution to exist.
GUILT. Guilt that I did not have the courage to confront the rampant Sexism and Racism amoungst the prisoners and guards; or the guards or their role in perpetrating this barbaric system. Guilt that I had chosen to come to prison when so many people

PRISONS ARE A CRIME! Ⓐ

I recently spent two weeks in Boggo road prison, for taking part in an occupation of the Brisbane offices of B.P. The occupation was part of a nationwide protest directed at the two financial backers (B.P. & W.M.C.) of the Roxby Downs uranium mine. I was the fifth person to go to goal for that action. In many ways my time in there was, as one other prisoner put it, nothing more than a holiday. However even those two weeks had a greater effect on me than I had imagined. Three weeks after getting out I was still having dreams about the place and some of the people I met. I had a number of thoughts about the existence of prison, the conditions in there, and the conections between the nuclear industry and prisons whilst I was in there. It's some of these I want to develop here.

Why Do Prisons Exist.

I can think of four reasons that the state puts forward to legitamize prisons. I.) That they deter people from commiting so--called criminal activities. 2.) That they protect society. 3.) That they rehabilitate people who have broken society's rules. 4.) Revenge.

I.) The deterrent arguement is not persuasive when one considers that the crime rate is constantly rising despite the existence of prisons, and that prisons are nearly always full. Does this mean that penalties are not severe enough? Are prisons too good for many people ? Hardly. When I think of the trivial offences that some people were in for and the corresponding scentences I am dumdfounded; e.g: a pensioner who had been supplementing his income by doing some unclaimed work recieved eight weeks.

2.) When talking about protecting society we have to look at what we are protecting. when one considers that only 15 % of people in prision are there for crimes"against the person" the answer seems overwhelmingly directed at property. If one also considers that Boggo Rd. is not filled with Brian Mahers but the vast majority of prisoners come from very low income backgrounds, it becomes even more clear they are protecting the people who have property from those that do not. An intresting aside is that this is also what we have the military for, and the arms race, to protect our wealth and land from those that have reason to covert it, The connections with the uranium industry can also be seen here in the preparedness of the system to use it's police, courts, or prisons to risk ecological catastrophe and cost of life in the pursuit of wealth.
If one also considers that 30% of the prison population is Aboriginal, whilst they only make up 2% of the national population, it appears that prisons help to protect and reinforce a racist society.

3.) That prisons rehabilitate people is also a myth. The majority of people who go to prison, re-offend. Those people that go in poor normally come out poor, and face the same pressures that faced them when they committed their first 'crime'. We live in a materialistic society where wealth is worsipped above everything else. Our wants and desires are transformed into needs by billboards, T.V., Radio, Newspapers, Magazines, and social pressures.
Then when people don't play the game in trying to fulfil those 'needs' that are beyond their means, they are punished.
In addition, nothing is done inside to promote rehabilitation.
It is my belief that property crimes occur due to societys' (push for aquisition), and violent crimes due to society reducing people to the status of objects. People are able to bash and mug

A INTERVIEW WITH MARK FROM DISPUTE

R.A.: How long has the band been together?
M.: Dispute have been practising for about 2½ years but have just started getting their act together in the last year.
R.A: Has their been any line up changes?
M: YEH,Martin used to sing but I started about two months ago.
R.A: Have you had any gigs with you singing and what was the response from the crowd like?
M:We've played twice with me singing,the first one was with N.T.T,that one went great the crowd really got into it aswell, second time wasNT quite as good but it went O.K.
R.A.: What do you base your lyrics around?
M: Mainly about problems in the world,i.e. Governments,Wars, personal and social problems and a few silly songs just for a laugh.
R.A.: What do you think of the scene in Brisbane at the moment?
M:Well we've got some good bands,our own fanzine,so thers some positive things happening unfortunately theres a few idiots who stuffcthings up for everyone else with their pointless violence.
R.A.:What are your influences?
M:Anything thats fast and has some meaning behind it,ie.Conflict, Disorder etc.
R.A:Do you intend staying in Brissie or are you planning on travelling around.
M:WE want to travel as soon as we save up enough money,so for now we'll be staying around Brisbane.
R.A:Are any of you vegetarians or vegans?
M:Yes,unfortunately I'me the only one though.
R.A:What do you think of the'punk'movement?
M:Simple,theres two sorts of punks,those that care and those that don't.
R.A:So,what do you think punk means?
M:In my eyes punk is a way of rebelling against the roles we are put into in society.
R.A:So to finish it off,where do you think the world is heading?
M:I think it could go two ways,it could end up with total destruction or if people realize what happening in the world and get organized we could stop the madness and live in a world without the threat of war,starvation,racism,sexism etc.

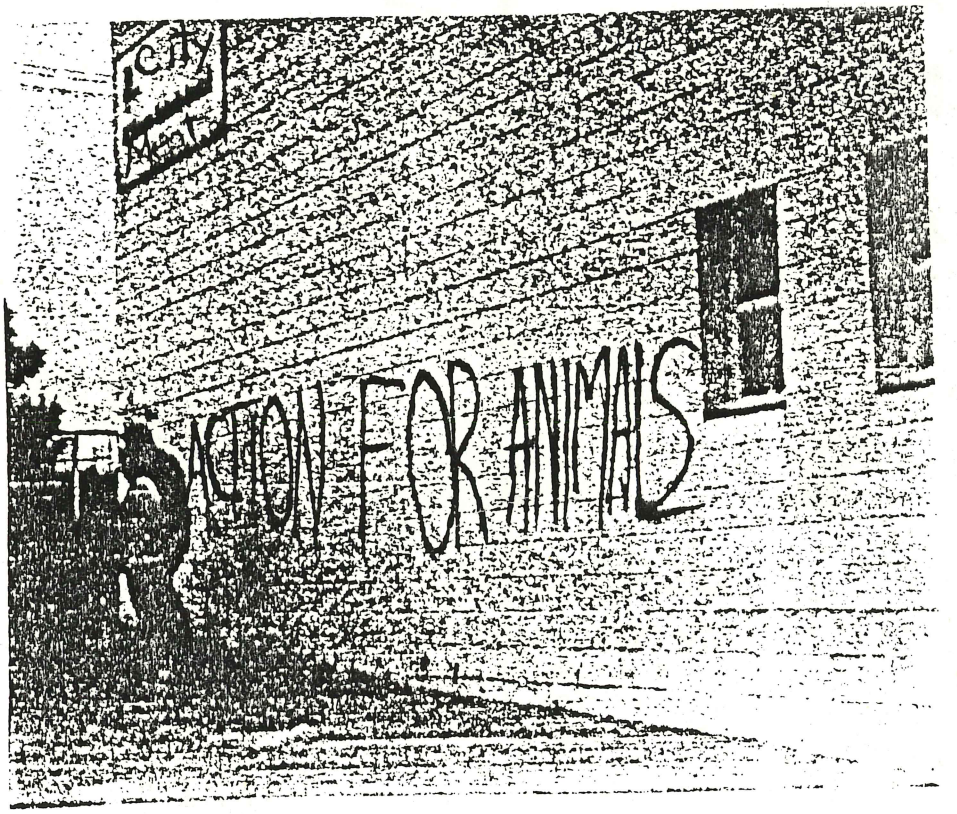
YOU TRY TO SMASH ME IN A FIELD,
THEN COME AND EAT ME AS YOUR MEAL.

"We have never done anything which could harm a sentient creature, whether human or some other animal. While we understand the anger and frustration expressed by those who know how animals are treated in experiments, we do not condone such tactics. Violence will only breed more violence. We believe firmly in peaceful and nonviolent methods of eliminating the violence inflicted on animals today."



There are many methods of direct action without using violence. Next time you feel anger over the senseless slaughter of animals, don't just bang your head against awall and feel pity, grab a can of spray paint, write your thoughts where other people can see them. Slogans such as "SMASH THE MEAT TRADE" will do wonders for the local butcher shop.

Talk to your friends and family, find out how they feel about the cold blooded murder and exploitation of animals. Find out whether there are any of the following in your community: Butcher Shops, Meat Take-away Stores (M'Donalds, Kentucky Fried Chicken), Fur Shops, Meatworks, hospital Animalsbreeding Houses, Research Centers were experimental animals are used.

Glueing up locks, graffitting, street speaking, and rescueing laboratory animals from certin death are just a few forms of positive action. For those of you who are not quite as adventurous, but still want to help, write to Animal Liberation or Direct Action For Animals Rights. There is always help needed, good homes for rescued animals are always hard to find. Get together and draw up a petition get as many signatures as you can, and send them to laboratories and pounds.
Action For Animals is a non-violent direct action organisation commited to animal rights-- it does not consider damage to property as violence.

CRUELTY TO ANIMALS

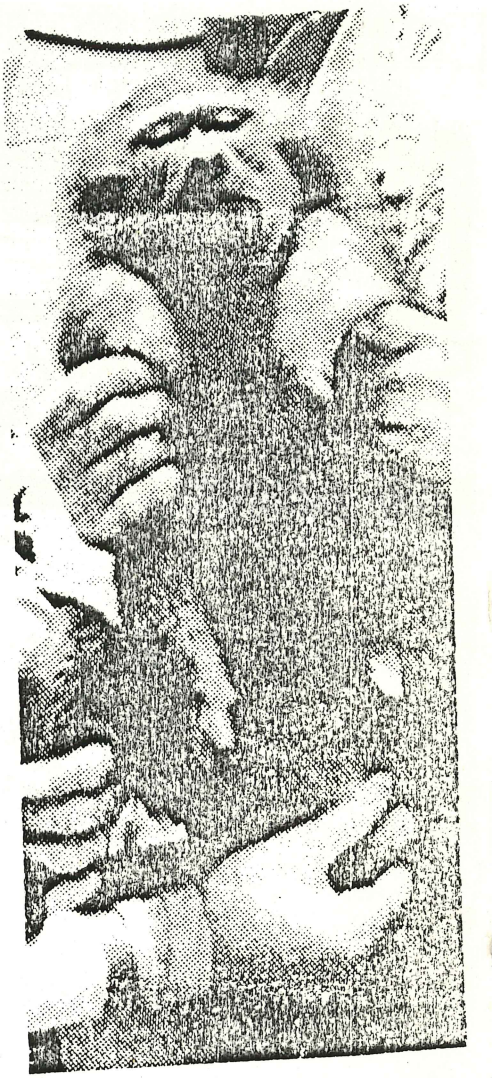
PIG IN A BLANKET



I tell you about the animals,
How they suffer how they die.
You try to hide guilty doubt-
From me with an appeasing smile.
You never want responsiblity-
For this murderous cruelty.
The wasteful piles of blood soaked bodies-
You won't let your conscience see.

Ask yourself what makes you want this-
Torn ripped flesh so desperately.
Are you worthy of having this suffering-
Bought about to fuel your greed???
Not satisified with killing animals-
You're killing millions of people as well.
As the numbers increase of those dying-
In your man made third world hell.

Millions dying all the time-
Locked in your abbatoir of greed.
Whilst you destroy them and yourself-
By taking much more than you need.
There is no justice in this death-
No illusion I'll let you hide behind.
The tradition you use to hide animal murder-
Is nothing but a thin disguise!

SICK BUTCHERS

I used to graze in a field
Used to breath I used to be alive
Did chew the grass in the field
Could see and hear the world around me
See and fear man around me
Had a virgin skin
But now sold in supermarkets
Now studded blankets.
Used to hear the birds
and the cars going by
And the people going by
They were my destiny
They were my reasion
My purpose in this field
For their plates
Their cold bodies
Their car seat covers
My soul for your soles of shoes

You may like my taste
You may like my warmth
It may say in the bible that you can kill me
But I don't want to die
YOU TRY TO STROKE ME IN THE FIELD
THEN GO HOME AND EAT ME AS YOUR MEAL!
